## **ALERT**

### **SPORT SHOOTING INSTALLATIONS IN DANGER !**

### **REACH REGULATION by THE EUROPEAN COMMISSION EXTENDING THE LEAD BAN IN AND AROUND WETLANDS**

### **EUROPEAN PARLIAMENT - PLENARY SESSION - 24/25 NOVEMBER 2020 OBJECTIONS TABLED AGAINST THIS REGULATION**

*For the attention of the European Shooting Sport Federations,  
and of the European sport shooters*

Dear Sir/Madam,

Upon proposal of the European Commission, the European Parliament and the Council of the European Union have adopted a new rule ([rule + annex](#)) which extends the ban on the use and possession of lead shot cartridges in wetlands and over a strip of 100m around them, including for shooting ranges.

FITASC has assessed that the existence of more than 600 shooting sports facilities (out of the 3,000 existing in the European Union) including one or more permanent bodies of water are directly threatened by this rule.

For the past several months, FITASC and ISSF/ESC have jointly striven to have this rule rejected by the Members of the European Parliament and by the Council of the European Union so that the rule be re-worked with an exclusion of the shooting sport from its scope.

The FITASC and ISSF have especially informed the Members of the European Parliament of the disastrous consequences that this rule would have for the shooting sport (please see [the letter of 19 November 2020](#)).

At the last plenary session of the European Parliament, two objections against the rule of the European Commission were tabled: one by the European Conservatives and Reformists Group (ECR), the other by a group of Members of the European Parliament from the Identity and Democracy group (ID).

Last 24<sup>th</sup> November, the objection tabled by ECR, supported by several political groups, collected 292 votes FOR, 362 votes AGAINST and 39 ABSTENTIONS: so this objection was rejected, as well as the ID objection the day after, and the new rule adopted.

By clicking below on the flag of your country, you will get the list of your National Members of the European Parliament who voted for or against the ECR objection against the new regulation on lead ban.

Last 2<sup>nd</sup> December, the Council of the European Union adopted the new rule with 18 votes FOR, 6 votes AGAINST AND 3 ABSTENTIONS.

Thus the rule on ban of leadshot in/around wetland will shortly come into force in EEA countries (EU + Norway, Iceland): FITASC will closely monitor its national transpositions among these countries and we invite you to do so.

Your national federations will keep informed the shooting sport installations on the consequences of the rule application in your country.

Jean-François Palinkas, FITASC President
